Woven polyester fabric

Product model: Polyester base fabric

A plain-weave polyester fabric used as reinforcement for tarpaulin coating or lamination.

MATERIAL SPECIFICATIONS

Technology:	Plain woven
Base fabric:	1000D*1000D/30*30
Tearing Strength (N/5cm)	1400-1700
Tensile Strength (N/5cm)	4000-4500
Elongation Rate (%)	12-15
Width:	1.05-5.1m
Roll length:	According to request

Values and available configurations are reproduced from the current material specification. Where a table lists several configurations, agree the selected construction for the order.

Listed fire-test grades or optional treatments do not certify every supplied configuration or finished product. Any test report applies to its submitted sample and stated test conditions.
